

- For suspending lighting fixtures of any size
- A fitting with M3 thread
- Single pole conductivity possible

APPLICATION

- for suspending LED lighting fixtures

MOUNTING

- locked in the fastener with a pressure screw

ADDITIONAL INFORMATION

- outer diameter 3 mm
- if rods are used for conducting current, the anodized layer should be removed at the points of contact

TECHNICAL SPECIFICATIONS

Material	aluminum
Diameter	3 mm
Conducting electricity	yes
Lifting capacity	3 kg
